BLASTING MACHINE BB-75

Easy to use blasting machine

Easy to use firing machine for the EOD and fireworks specialist. The built-in bridge wire testing circuit makes daily work easier. It works with a standard 9-Volt battery.

- ✓ Easy to use
- ✓ Built-in bridge wire testing circuit
- ✓ Works with a standard 9-Volt battery

DATA SHEET

Blasting Machine BB-75

TECHNICAL DATA

Article number	1280008
Minimum firing energy output	375 VDC / 10.5 Joules
Maximum firing energy output	385 VDC / 10.5 Joules
Minimum number of electric blasting caps	75, connected via 1000 m (3281 ft) of two-conductor 0.75 mm ² (approx. AWG 18) copper firing cable
Power supply	9-Volt battery
Dimensions	8.9 cm x 16.5 cm x 3 cm (3.50 in x 6.49 in x 1.18 in)
Weight	0.326 kg (0.72 lbs)
