MODULAR TACTICAL VEST ELITE

Modular tactical ballistic protection vest

The Modular Tactical Vest is a configurable intervention vest specifically designed for police and high-risk SWAT teams. Compatible with protective modules (groin, throat, collar & shoulder, upper arms) and hard armor plates it allows the wearer to adjust the protection to suit any mission. Various soft armor designs are available according to all international testing standards. The standard level is IIIA according to NIJ. To increase the level it incorporates insert pockets for hard armor plates.

The outer garment is made of high-quality 500D PU coated Nylon carrier fabric and provides a quick attachment of MOLLE compatible pouches and accessories. It provides a superior 3D Air Mesh inner layer and a Velcro front panel for ID/IR/Data Patch attachment. The complete MOLLE webbing is integrated to garment color. High strength hook & loop fasteners guarantee high durability and reliability. The soft armor is encapsulated with Nylon TPU coated fabric and vacuum sealed to protect against the elements. Various soft armor designs are available according to all international testing standards.
