LIGHTFLEX LED FIBERSCOPE

High-quality LED Fiberscope for easy inspection of hard-to-reach places in luggage, vehicles, buildings, etc.

The Force Ware Lightflex LED endoscope is designed specifically for law enforcement. This is the only fiberscope with incorporated battery and LED lighting directly into the handle. There are no cables to connect, making it the easiest and fastest endoscope to use. Up to 4 hours working time with the integral rechargeable battery or cigarette lighter adapter for use directly on the vehicle. The scope could be easily grounded and allows fast and safer inspection of tanks, doors, ventilation systems or other cavities.

Lightflex standard Fiberscopes are supplied with Glass Fiber Image Guide, Glass Fiber Illumination, non-conductive PU tube, Rubber Eyecup and are delivered in a System Carrying Case.

- ✓ 2-way articulation +/- 120°
- ✓ Probe diameter 6.0 mm (0.24 in)
- ✓ Probe length 200 cm (78.74 in)
- ✓ Non-conductive polyurethane tube
- ✓ Gasoline-resistant
- ✓ Working time 4 hrs
- ✓ Built-in high power LED light source
- ✓ Built-in rechargeable battery
- ✓ Adjustable focus
- ✓ Carrying case included

DATA SHEET

Lightflex LED Fiberscope

TECHNICAL DATA

Article number	1190100
Articulation	2-way +/- 120°
Probe diameter	6.0 mm (0.24 in)
Probe length	200 cm (78.74 in)
Tube	Non-conductive polyurethane tube
Resistance	Gasoline-resistant
Light source	Built-in high-power LED
Power supply	Built-in rechargeable battery
